

We **OPPOSE** the five-story Gabae coastal bluff complex proposed for 16990-17000 Sunset Blvd (at Marquez, in Pacific Palisades) and authorize the delivery of this petition to any and all governmental agencies, elected representatives and their respective staffs.

The five-story, 49 unit Gabae Tower development will increase traffic and create a dangerous stretch on Sunset Blvd. This dangerous development poses earthquake, landslide, and environmental risks that have not been adequately addressed. Help us save the Palisades bluffs and reject the Gabae Tower.
